

Bogazici University Wireless Guest Network (BU_Guest) Connection Guide

1. Connect to the “**BU_Guest**” network from your device. (Image 1) You will be automatically redirected to the login page. (Image 2) If the redirection does not occur, you can manually reach the login page by typing “**guest.bogazici.edu.tr**” into the address bar of your browser (Chrome, Safari, etc.).

2. If you already have a guest account provided by the institution, you can proceed to step 3. To create a guest account, select the **"Register with T.C. ID"** option and fill out the form that appears completely and accurately. (Image 3) After approving the GDPR (General Data Protection Regulation) text, click the **"Register"** button to complete the registration process.

3. After completing the registration process, your username and password will be sent to the phone number you provided in the registration form via SMS. Select the **"Login"** option, then fill out the form on the screen that appears by entering the username and password you received. (Image 4) Click the **"Sign in"** button. You can now start using the internet service through the guest wireless network.
